

The logo for 'zeromission' is displayed in white text against a background of a dense forest. The word 'zero' is stylized with a circular graphic element around the 'o'.

zeromission

Società per la Cremazione Torino

Hereby offsets 849 ton CO₂e for emissions arising from deriving from company operations in 2022. This is done through tree planting in the project CommuniTree in Nicaragua

The carbon is sequestered by trees planted by more than one thousand small holder farmers across multiple regions in Nicaragua. This project supports a multitude of social and ecological co-benefits such as increased economic security for participating farmers, a healthy habitat for biodiversity to thrive in and the growing tree roots stabilize land to hold water and prevent land slides.
